## cleaning and disinfecting solutions

**Compatible. Versatile. Convenient.**

# SideKick solutions

In the healthcare environment today, the high-touch surfaces surrounding our patients are at-risk areas for harboring viruses, bacteria, and other pathogens. Introducing SideKick, an easy-to-use disinfectant that is both convenient and highly effective at disinfecting pre-cleaned, hard, nonporous surfaces with its two-minute wet contact time. Its broad-spectrum efficacy is tuberculocidal, bactericidal, virucidal and fungicidal.

We've listened to your concerns and we understand your challenges. We have developed a product that meets your facility's many cleaning and disinfecting needs. **With SideKick, you can feel confident standardizing with our products in hospital and EMS environments.**

## Compatible

Tested 100% compatible on 200+ materials used in our beds, stretchers, patient support surfaces<sup>2</sup>, furniture, chest compression systems, defibrillators, emergency care cots, cot fasteners and chairs.<sup>1</sup>

**100%**  
compatible

We are your partners in prevention through the equipment we provide and in the solutions designed to take care of your products. SideKick is the only cleaning and disinfecting solution that is 100% compatible<sup>1</sup> for use on our beds, stretchers, patient support surfaces<sup>2</sup>, furniture, chest compression systems, defibrillators, emergency care cots, cot fasteners and chairs.<sup>1</sup>

## Versatile

Broad-spectrum efficacy: tuberculocidal, bactericidal, fungicidal, virucidal.

Both an effective cleaner and disinfectant.<sup>2</sup>

Can be used on our products and other healthcare surfaces.

Neutral pH of 7.6.

**2 minute**  
**kill time**

**tuberculocidal, bactericidal,  
virucidal and fungicidal**

## Convenient

Two-minute wet contact time.

Ready-to-use formulation: no mess or potential for chemical mixing errors.
